- Front-End (HTML, CSS)
- Back-End (Python, SQL)
- Full-Stack Development
- Version Control (Git & GitHub)
- Database Management (MySQL, PostgreSQL)

# IMOLI JAMES MUGANZI

Full-Stack Developer | Civil & Structural Engineer

## Projects

Tindog Project - A Tinder-style app for dogs, built using Bootstrap, HTML, and CSS. Inspired by Dr. Angela Yu, the site demonstrates creative responsive design and problem-solving.

Bootstrap Project - A fully responsive and creatively crafted website using Bootstrap. Brought to life with attention to detail and aesthetic sensibility.
